Summary

Key Insights:

Consistent monthly spend (\$4.1M–\$4.7M) and transaction volume all year
Avg transaction value stable (~\$43.70); no behavioral shift Active
customers grew steadily (1,083 → 1,133)

Note: An earlier version showed a false May drop caused by a truncated data extract; rebuilding KPIs from the full transaction source corrected it.

Recommendation: Validate data completeness before trend reporting;
monitor volume and customer growth.
